🏡 Villa San Pedro Basak Pardo, Cebu City

PROFESSIONAL SUMMARY

A motivated BSIT student with hands-on experience in web development, API integration, and problem-solving. Skilled in JavaScript, React.js, and modern development tools, with a strong passion for creating efficient and user-centric applications.

ACADEMIC BACKGROUND

CEBU INSTITUTE OF TECHNOLOGY -

UNIVERSITY

2022- Current

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Coursework included programming fundamentals, database management, web development, software engineering principles, and system analysis

DON VICENTE RAMA MEMORIAL

NATIONAL HIGH SCHOOL

2020-2021

SENIOR HIGH

Completed secondary education with focus on mathematics and science courses. Developed strong analytical and problem-solving skills that later contributed to interest in technology and programming.

PROJECTS

VOCALYX - SPEECH-TO-TEXT

GRADING SYSTEM

2025 - Current

Developed a speech-to-text application that simplifies grading for faculty members. Built with Kotlin (53%), JavaScript (31%), and Python (15%). Features voice recognition technology to allow effortless score input, reducing faculty workload and ensuring timely grade submissions. Demonstrates proficiency in mobile development and AI integration.

NEIGHBORNET - COMMUNITY

PLATFORM

2024 - 2025

Collaborated on a community networking platform using JavaScript (54%), Java (24%), and Kotlin (21%). Developed features for local community interaction and neighborhood services. Demonstrates teamwork, mobile development, and cross-platform programming skills
